

# YIGA MENTUH

## for Computer Systems Engineering Representative

I'm Yiga Mentuh, a first-year student in Computer Systems Engineering, and this is my nomination infographic to run for Computer Systems Engineering Representative!

### Why Am I Running?

Our program is one of the largest engineering departments, full of hardworking students who deserve strong representation. I'm committed to advocating for more career opportunities, keeping students informed with important updates, and getting more involved with the CSES community!

### About Me

I live in Milton, a small town just outside of Toronto. For as long as I can remember, I've always been obsessed with hands-on projects, which led me into robotics and Carleton engineering!

Outside of school, I have a passion for music. I play multiple instruments, but my favourite is the guitar. I also love figure skating and enjoy going on the ice with friends.

I am very excited to start campaigning! If you have any questions, feel free to reach out at [yigamentuh@cmail.carleton.ca](mailto:yigamentuh@cmail.carleton.ca)
